ACIS 414/83
7 July 1983

MEMORANDUM FOR: [redacted] SA/DCI/IA

25X1

FROM: [redacted]

25X1

Chief/Arms Control Intelligence Staff

SUBJECT: Background Material

1. This "fast track" material responds to your request of 6 July to provide you some background materials on INF for the DCI's meetings on Friday with Secretaries Weinberger and Shultz.

2. The most important item is Ambassador's Nitze's recent private message, which you already have. An earlier private message is also germane; [redacted] has a copy.

25X1

3. Also useful are two recent news articles on INF; you already have them but an extra set is attached.

4. Also attached is a copy of a message from the intelligence support team [redacted] This message presents a case, albeit speculative, that the Soviets may be interested in movement in the INF talks.

25X1

5. In addition, I have attached several one-page overviews of key portions of the INF talks. *the P-II Story is the newest; see **

6. If there is anything further I can do, please call and let me know.

Attachments:
As stated

P.S. this paper isn't integrated because I thought the purpose is to give the DCI/DDCI material to think about.
